Tuesday morning's train was
two hours late owing to the Spo-
kan train having left the rails at
Macleod on account of the high
wind drifting snow and sand on-
to the tracks. Two coaches turn-
ed over onto the tracks of the
northbound train so it could not
pull out till the tracks were
cleared.

The Calgary Herald road race
took place on Christmas day not-
withstanding the zero weather
and slippery pavements. It was
the most hotly contested race in
years. Dave Honeyman, last
year's winner, won over Arthur
Woods in a fighting finish by one
second. Jack Ross, a winner in
former years, coming in third.
Vance came in fourth 3 min-
utes, 25 1-5 seconds later. Vance
could unquestionably have run
a closer race but for a bad fall on
the slippery pavement within
three blocks after the start. He
was stunned by the fall, which
left him in an unfit condition to
run.

MORRISON—NELSON

A very pretty wedding took
place at the home of Mr. Bertie
Nelson on Wednesday afternoon,
December 29th, when his only
daughter, Nellie Louise, was
united in marriage to Mr. George
Lloyd Morrison.

The bride, who was given away
by her father, looked very charm-
ing in her dress of white satin,
and bridal veil which was held in
place by a wreath of orange blos-
soms.

The young couple were attend-
ed by Miss Martha Thompson, a
cousin of the bride, and Mr. Da-
vid Morrison, a brother of the
groom. The wedding march was
played by Mrs. F. R. Slipp.

After the ceremony, which was
performed by the Rev. F. W.
Locke, the guests, numbering
about forty, sat down to a dinner
which in abundance and excel-
lence left nothing to be desired.

The guests looked at the nu-
merous presents, both beautiful
and useful, we overheard the re-
mark: "What a pleasure the
bride will find in the use of these."

The groom's gift to the bride
was a pearl necklace, to the
bridesmaid a pearl brooch, and to
the "best man" a stick pin.

The young couple left the
home amid a shower of rice and
good wishes.

CURLING

There are five simple ways to tell good tea.

First, by the bright copper color of the tea when steeped.

Second, by the exquisite aroma.

Third, by the delightful, refreshing flavor.

Fourth, by the satisfying richness.

Fifth, by the economical strength.

Make a brewing and you will find all these qualities combined in Red Rose.

Red Rose Coffee is as generally good as Red Rose Tea.

Wrangel Seeks Aid

Would Re-organize His Whipped Troops for New Attack on Bolsheviks.

General Baron Wrangel, head of the Anti-Bolshevik Government of South Russia, has notified the French Government he is ready to come to Paris to discuss with his army one more against the forces of Soviet Russia, says the Mail. This army, which has been re-organized since its disastrous defeat on the Crimean Peninsula, is said to number about 70,000 men.

Musical Sounds Under Water

Experiments May Prove of Practical Value in Navigation.

All the world has learned something of the hydrophone—the instrument which enables the presence of submarines to be detected by the vibrations they set up in the water. Less is known about the wonderful experiments carried out in connection with this work, in the production of sound under water. The method ultimately adopted was to blow a jet of condensing steam from a nozzle on to a diaphragm under water. This resulted in the production of a soft musical note which could be heard by means of a hydrophone up to a distance of eleven nautical miles. The manner in which the sound is produced is closely akin to the "bringing" of a kettle before it boils, the repeated collapsing of bubbles of steam on coming into contact with cold water sets up vibrations which, under certain conditions, are rapid enough to give a musical note. These experiments are of great scientific interest, they may prove practical value in commercial navigation as well as in naval operations.

Divining Rods

Have Been Pretty Thoroughly Discredited After Many Tests.

We are inclined to agree with the report that the French Government has decided to test the value of water-divining in its African colonies and has appointed a number of hazel-rod experts as members of a commission consisting of geologists and surveyors to hunt for new oases in the Sahara desert. The divining rod has been thoroughly discredited by consistent non-performance in the colonies during which superstitious belief in its efficacy has prevailed. The diviners of the west, particularly those who settled in the little watered sections, were familiar with it. If the divining rod had half the power that used to be claimed for it, the country would now be dotted with flowing wells and rich mines—Portland Oregonian.

Making Lining In Canada

Canada is taking her place as a great iron-making country. Owing to the enterprise of a group of Ontario men, the iron industry has been firmly established in the Dominion and a complete plant with an enormous output has been built at Sarnia. This is a very fine grade of lining from flux grown in Canada, refined in the Dominion and shipped to the first time on this continent.

Minard's Liniment For Gout In Cows

Deprecates Lodges' Theory. In the opinion of Lin. Col. A. S. Evers, F.R.S., professor of physics at McGill University, and a distinguished scientific scholar, the theory of the Sir Oliver Lodge, Coma Doyle and others on the subject of physics popularly known as spiritualism, does not rest on any evidence, having no value.

Tight Skirt Is Really Ancient

The modern skirt, such as the revival of a very ancient fashion. A statue in the Louvre, Paris, shows an Egyptian Queen of from 2000 to 4000 years ago in a gown cut low in the neck, with sleeves stopping well short of the elbow, and with a skirt which fell to the floor, closely then the tight skirts of today.

Cataract Cannot Be Cured

LOCAL APPLICATIONS, as they are called, in the treatment of cataract, is a local disease, greatly influenced by local conditions. Old Folks' Coughs, Catarrh, Bronchitis Quickly Cured

This Tells of a Method That Cures Without Using Drugs

Elderly people take cold easily. Unlike young folks, they recover slowly. The cough, the cold, the asthma, the catarrh, the bronchitis, the pneumonia.

Cough Sympiesin does much good because they, more digestion. Any doctor knows that a much more effective treatment is "CATARRH SYMPTESIN," which helps and soothes the throat, and relieves the chest.

Using Catarrh Sympiesin you do not take medicine into the stomach—where the affected parts are. It reaches the throat, the chest, the lungs, the bronchi, the catarrh and bronchitis disappear almost instantly.

Cough Sympiesin is a powerful expectorant, it loosens the phlegm, it soothes the throat, the chest, the lungs, the bronchi, the catarrh and bronchitis disappear almost instantly.

Statistics On Industries

Statistics showing the number, concentration payroll and production of the manufacturing industries in the forty-four cities in Canada in 1918 have been compiled by the Dominion Bureau of Statistics. The statistics cover the industries of 44 cities of which 25 are in Ontario.

How Hail Insurance Works

The Extent to Which It Operates in Saskatchewan and Alberta.

Hail insurance is practically only a term in Eastern Canada, but in the West it signifies something of vital importance. Measures known as Municipal Hail Insurance are in force in each of the Prairie Provinces. These Acts provide a system of mutual insurance under which rural municipalities can operate to tax each other for the protection of crops to individuals for losses incurred by hail, which are often very serious. How the system works out and the extent to which it operates in Saskatchewan and Alberta are set forth in the November number of The Agricultural Gazette of Canada. Each claimant is entitled to receive not more than five cents per acre for hail loss sustained. To secure this privilege a farmer must not appear a very liberal borrower, but when it is understood that the number of claims filed in 1919 in Saskatchewan were 7,838, and that the total indemnity paid amounted to \$91,776, a different view will obtain. For one claim alone that occurred in July of the year referred to, claiming \$100,000 were satisfied, the total loss to the farmer was \$100,000. He was insured for \$100,000. He was insured for \$100,000. He was insured for \$100,000.

Reduced by Asthma

The constant strain of asthma brings the sufferer to the verge of physical exhaustion. Early use should be made of the inhalant, "ASTHMA REMEDY," which acts quickly and surely on the air passages and helps to relieve the distress.

Unique Barley Discoveries

Saskatchewan Farmer Grows True Sample of Barlees and Hulless Barley.

Last summer, E. D. Potter, when he was through the crop of barley, the farmer's farm at Lily Plain, Saskatchewan, observed a peculiarly shaped plant of barley.

Potter's curiosity was confirmed, for in the casual eye the grain was overlooked. Later the plant was found to be a new variety of barley, which he had named "Barley No. 1."

Potter's second discovery was a new variety of barley, which he had named "Barley No. 2." It was a new variety of barley, which he had named "Barley No. 2."

Knows How to Patten Cattle

Twenty-year-old Walter Edward, of Acornville, will now between \$70 and \$800 as the result of his money ability to fatten young cattle. He was given an animal to fatten in the summer of 1918, and he has since then been adding 500 pounds to its weight.

Alaska Losing Population

Alaska's population is 54,718, a decrease of 149 per cent in the last 10 years, according to an announcement made by W. T. Lipp, who, as assistant of the Alaska District of the United States Bureau of Education, had charge of the census in the northern territory. Ten years ago the population was 64,248. Last year there were 26,219 white residents and 25,500 natives.

The Pile That Awaits Nature

Doctors agree that the best medicine is one that assists nature. "Nature's Own" is a purely vegetable origin—being composed of the best of the plant kingdom—made these well-known pills cleanse the bowels and take up the system, and it is a remedy of condition which conduces to relief. Refuses to Accept Legacy

Chas. Garland Refuses Manual Labor to a Life of Luxury.

Charles Garland, second son of the late James A. Garland, Boston multimillionaire, has declined to accept \$100,000, his share of his father's estate, because he prefers manual labor to a life of luxury. He is living with his wife and infant daughter at Bay Road Farm. His mother and summer residence at Buzzard's Bay, Mass. His mother fortified her property, the Garland estate, by marrying Francis Cushing Green in 1912. Since then the big estate has been held in trust for the three sons.

COULD NOT SLEEP

Hallie, N. B.—"I was in a run-down nervous condition for over two years, had been treated by several doctors and only found temporary relief. I could not sleep at night, heart palpitated and I was almost blind to close my eyes. Being persuaded, I wrote and mailed my symptoms to the Medical Dept. of Dr. Pierce's Great Peppermint Cure. I received a letter from Dr. Pierce, and I was cured. I am now the 'Peppermint Cure' for my nervous condition. I am now the 'Peppermint Cure' for my nervous condition. Western Canada Construction

McLennan's construction reports show that for the first 10 months of 1920 the total value of western construction was \$2,240,000, compared with \$2,036,000 during 1919, and \$1,099,500 in 1918. Their estimate for 1920 building was \$800,000. This year's total has not been equalled since 1913.

CHILDHOOD CONSTIPATION

Constipation—that disordered state of the digestive tract which is usually the result of improper feeding—can be readily regulated by the use of the "Laxative." It is a mild, but thorough laxative. They are easy to take and are absolutely free from poisonous drugs. Concerning them Mrs. Joseph Dion, St. Perpetue, Que., writes: "I have nothing but praise for Baby's Own Tablets. My baby was constipated for months and he was terribly comforted by the Tablets. Since then he has been a healthy baby and this good medicine has been a great help to me."

British Settlers for Ontario

Ontario may have an influx of no small army of immigrants from England and Scotland next spring, in the opinion of Hon. Manning Doherty, provincial minister of agriculture, who has arrived here after a stay of four weeks in England. The most of them will be a very desirable class of men, farmers, and a large number of them will have a considerable amount of ready cash with which to purchase land and implements.

Always made with the first grade patent flour, but sold at the same price as ordinary bread. 2 for 25—Bothwell & Iretson's and J. M. Selby's in stores, and at the bakery, Shelter street.

The local Annual recently honored a former member, Mrs. Fatland, widow of the late Rev. H. G. Fatland, by presenting her with a life membership in the Alberta W. C. T. U. At Christmas time Mrs. Ringrose, the secretary, sent her a beautiful gold white ribbon, pin accompanied by the season's greetings.

Saturday will be a day of festivity and we trust it may be thoroughly enjoyed by all. The day following will be the first Sunday in 1921. Let us begin the New Year right by being present at one of the services of God's houses, and if possible, at both of these.

Let us also make the Sunday school attendance a record one. "And he came to Nazareth, where he had been brought up; and as his custom was, he went into the synagogue on the Sabbath."—Luke 4:16.

U. F. A. Annual Meeting

The annual meeting of the U. F. A. was held in the U. O. F. hall on Wednesday of this week. T. D. Lewis was elected president for 1921, Nick Taitinger was elected vice president, and R. S. Law secretary-treasurer.

The wheat pool was freely discussed and several amendments to the contract proposed were suggested and will be sent to the annual convention at Edmonton next month.

The meeting adjourned until next Wednesday when the wheat pool will again be under discussion.

Twenty-four members were elected delegates to the convention at Edmonton.

A united church service was held in the I. O. O. F. hall last Sunday night. A splendid program of Christmas music was rendered by about fifty school children who had been trained for the occasion by Mr. W. G. Moffatt. One very pleasing feature was the large number of boy singers, several of whom sang solo parts. Several excellent voices were easily distinguished. Much credit is due Mr. Moffatt for the splendid training which he is giving the growing generation in Claresholm, and the high class of music which he selects doubtless will develop in the youth a taste for the best.

A very interesting sermon was delivered by Rev. Mitchell, while Rev. Locke took the opening exercises. The hall was crowded to the doors by an attentive and interested audience such as we will have every Sunday when church union is an established fact.

Masonic Social Evening

The Masonic social evening held at the School of Agriculture on Tuesday night was a very enjoyable event. About one hundred and fifty were present and an all around good time is reported.

A banquet was served at 7.30, followed by a musical program rendered in a very pleasing manner by Augustine Arldige, concert tenor; Miss Jessie Crystall, soprano; Miss Hazel Campbell, violinist; and Miss Grace Sykes, accompanist.

Following the program dancing was enjoyed till about 2 a. m.

Junior Hockey Association

In order to encourage hockey among the juniors, some of the foremost local sport fans called a meeting for Wednesday evening at the council chambers.

The meeting was attended by an enthusiastic crowd of juniors ranging in age from eight to seventeen. After a short talk to the boys from the chairman Joseph Taylor, they were dismissed and the meeting proceeded to business.

The following officers were elected: President, W. C. Miller; vice president, W. J. McKenzie; secretary, W. G. Farrer; coach and general manager, J. E. Moffatt.

The following teams were organized: Baracats, Dr. Stewart manager; Gophers, Joe Taylor manager; Macks, W. J. McKenzie manager; Tigers, W. D. Munro manager.

The teams have secured in J. E. Moffatt a very efficient coach and it may be expected that in the near future, if the support of the citizens is given, that Claresholm will be watching a very classy brand of hockey.

Dr. Stewart and Joe Taylor have wagered a box of cigars on the merits of their teams.
